

Where are you headed with Oracle® Hyperion?

A large percent of businesses are currently utilizing Hyperion 11.1.2.4, giving them more time to determine their long-term strategies. If you're looking to future-proof your Hyperion investment, there are three options that you can choose from. You can:

STAY IN PLACE | MOVE TO 11.2 | DETOUR TO CLOUD

YOUR JOURNEY. YOUR TIMELINE.

Is your current platform **secure** and **stable**?

Do you have **staffing** and **budget** for an upgrade?

Do you need time to develop a **cloud transformation strategy**?

52% of enterprises claim funding to be their biggest roadblock to the cloud.

Other roadblocks are waiting for end of life, time schedule and company culture.

MAINTAIN. UPGRADE. TRANSFORM.

STAY IN PLACE

Acknowledge Oracle **Premier Support** for Hyperion 11.1.2.4 **ends** in December 2021.

MOVE TO 11.2

Are there any **tight timelines** when the upgrade must occur?

DETOUR TO CLOUD

Is your business culture **ready for cloud** or is a **hybrid approach** the right direction?

MAINTENANCE CHECK OPPORTUNITY:

- ✓ Perform tech refresh of HW and OS.
- ✓ Update workflow or business processes.

Windows '12 supported to October 2023. Move to Azure for extended support on Windows '08.

Explore **new functionality** and capabilities in 11.2.

Will you go to 11.2 or "lift and shift" 11.1.2.4? If considering SaaS, **validate no critical capabilities are missing.**

No matter which version of Hyperion you're utilizing, Secure-24 | NTT can help you make the right decisions to future-proof your investment. Contact us today for more information.
